

DiscoverCosmicRays

INTERNATIONAL COSMIC DAY

November 05 | 2015

Also this year DESY, Fermilab, QuarkNet and Network Particle World are organizing the School students from across the globe can participate and ask question like:

- what are cosmic particles?
- where do they come from?
- how can they be measured?

Scientists working to answer these questions invite school students to join up for a day to get in contact with real science and

- perform your own cosmic particle experiment
- analyze and present your data on a common website
- compare your own results with the others
- work as in an international research collaboration

Some Participating Groups:
DESY, Hamburg
CERN, Geneve
Fermilab, Batavia
University of Birmingham

Aula M0

Dipartimento di Matematica e Fisica "Ennio De Giorgi"

9:00- 14:00

Become a Scientist for a Day

Discover the world of cosmic rays like
an astroparticle physicist.

Organizer:

Carla Bleve, Gianluigi Chiarello, Maria Rita Coluccia,
Alessandro Corvaglia, Ivan De Mitri,
Daniele Martello, Marco Panareo,
Maria Paola Panetta, Aurora Pepino,
Lorenzo Perrone, Carlo Pinto, Viviana Scherini.
